

AYŞE NUR KENDİRCİ

Software Engineering Student | Backend Developer | C#.NET

aysenurkendirciss@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineering student with hands-on backend and full-stack development experience in banking and software projects. Skilled in C#, .NET, REST APIs, SQL, MSSQL, Oracle Database, and API-driven application development.

EDUCATION

Doğuş University | 2023 - 2027

B.Sc. in Software Engineering

EXPERIENCE

İncehesap / Oksid Bilişim | Jun 2026 - Sep 2026

Part-Time Full-Stack Developer Intern

- Contributed to 2 software products: an actively used C#.NET warehouse management system and Inox Academy built with PHP, Laravel, and Blade.
- Worked on backend services, REST APIs, data flows, module integrations, gamification, notifications, and training-related features.

VakıfBank | Jan 2026 - Feb 2026

Backend Developer Intern

- Developed 2 core banking modules - account and card management - using C#, .NET Core, Angular, and Oracle Database.
- Built RESTful API and backend logic with Oracle Stored Procedures, Packages, Dapper, JWT, Clean Architecture, and Repository Pattern.

VakıfBank | Jul 2025 - Sep 2025

Mobile Application Development Intern

- Contributed to 2 iOS applications, PettiCare and CineScope, using Swift, UIKit/SwiftUI, Firebase, Moya, Alamofire, and external APIs.
- Integrated OpenAI Function Calling into CineScope for personalized movie recommendation flows.

PROJECTS

EcoGrab - Surplus Food Marketplace | .NET, MSSQL, Flutter - Developed backend functionality and integrated APIs with the Flutter client.

Heydou Campus - Campus Social Platform | C#, MSSQL, OpenAI - Developed backend/application functionality and integrated OpenAI-powered features.

CineScope - AI-Powered Movie Recommendation App | Swift, UIKit, OpenAI API - Built personalized recommendation flows with Function Calling and external APIs.

TECHNICAL SKILLS

Backend: C#, .NET, .NET Core, REST APIs, JWT, Dapper, PHP, Laravel

Databases: SQL, MSSQL, SQL Server, Oracle Database, PL/SQL, Firebase

Frontend & Mobile: Angular, Flutter, Swift, SwiftUI, UIKit, HTML, CSS

Architecture & Tools: Clean Architecture, Repository Pattern, MVC, MVVM, Git, GitHub, Postman, Swagger, Agile/Scrum

LEADERSHIP

GDG On Campus Doğuş University - Mobile Team Lead | Feb 2026 - Sep 2026

Coordinated technical collaboration and project activities within the student developer community.

CERTIFICATIONS

iOS Bootcamp - Kasım Adalan (Udemy) | SwiftUI Bootcamp - Techcareer.net | DenizAşırı Online Internship Program - DenizBank | GitHub Career Workshop - Techcareer.net

Learning SQL with Applications - BTK Academy | C# Projects: Learning by Building Applications - Udemy | Microfon English Course Certificate - Microfon
